

ROYAL HEALING

Strike the right balance between your health and lifestyle choices by unwinding with Royale FAR InfraRED Sauna, that too in the comfort of your home! A single session helps your mind and body re-energise, recharge, destress and detoxify. The radiant heat of the sauna induces profound sweating that helps release the toxins in your body. Let the heat work its magic on you. It hydrates your skin, and works wonders on skin issues such as acne and psoriasis, and also reduces wrinkles. Scars and burns will wither away with regular sessions of the FAR Infrared Sauna. The heat therapy also relieves aches and pains, assists in weight-loss and helps lower blood pressure levels. Step out feeling rejuvenated and healed.
